

**“The future has never been
brighter for Little Falls.
We’re ready to roll up our
sleeves and get to work
moving Little Falls
forward.”**

"From coaching to volunteering in town to knocking on doors, we've been listening to Little Falls residents. It's clear that a bright future means continuing to make local government efficient and responsive. Along with Mayor James Damiano, we'll continue to make progress. Here's some of what the Damiano Team has accomplished and what we'll do together:

- +Cutting wasteful spending
- +Making government more open and transparent by adding more meetings and time for public comment
- +Installed more flood protection and monitoring
- +Made critical investments in infrastructure, including restarting the Town road resurfacing program

What we'll do together:

- +Continue to work on making the downtown more vibrant
- +Work toward attracting new commercial ratables to town
- +Continue to find new ways to reduce the burden on taxpayers
